PROFESSIONAL SUMMARY

Aspiring Data Analyst pursuing a BCA with hands-on experience in Excel, SQL, Python, and dashboarding tools including Power BI and Tableau, gained through coursework, self-directed projects, and structured training programs. Comfortable performing data cleaning, exploratory data analysis (EDA), and KPI tracking, with a growing portfolio of applied projects. Completed the Deloitte Data Analytics Job Simulation and a 30-day Data Analytics Masterclass, building practical exposure to real-world analytics workflows. Eager to apply strong analytical thinking and a fast learning curve to an entry-level Data Analyst or Data Analytics Intern role.

TECHNICAL SKILLS

- Programming & Analysis: Python (Pandas, NumPy) — Data Cleaning, Exploratory Data Analysis (EDA)
- Databases: SQL — SELECT Queries, JOINS, GROUP BY, Subqueries
- Spreadsheet Tools: MS Excel — Formulas, Pivot Tables, VLOOKUP/XLOOKUP, Charts, Data Cleaning, Dashboards
- Business Intelligence: Power BI, Tableau — Dashboard Development, Calculated Fields, Interactive Data Visualization
- Statistics: Mean, Median, Mode, Standard Deviation, Probability
- Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Collab, VS Code

PROJECTS

Supply Chain Optimization Analysis

In Progress

Guided Project | Tools: Python, SQL

- Analysing a Kaggle supply chain dataset (18,000+ rows, 7+ columns) covering order delivery, demand, stock levels, pending orders, and profit/loss to study order fulfilment and demand-stock trends.
- Performed data cleaning including identification of missing values, removal of duplicate records, and conversion of date/time fields from object to datetime format.
- Explored the dataset using SQL queries and identified minimum, maximum, and unique values across key columns to understand data distribution.
- Applying KPI tracking and trend analysis techniques to evaluate delivery performance and stock patterns; dashboard development in Power BI/Tableau planned as next phase.

CERTIFICATIONS & TRAINING

- Deloitte Data Analytics Job Simulation — Forage (Completed June 2026) — Practical tasks in Data Analysis and Forensic Technology
- 30-Day Masterclass in Data Analytics — Novi Tech R&D Private Limited (Feb–Mar 2025)

EDUCATION

Bachelor of Computer Applications (BCA)

2024 – 2027 (Expected)

Thiruvalluvar University, Vellore, Tamil Nadu

Relevant Coursework: Database Management Systems (DBMS), Excel, Python, SQL, Statistics

ACHIEVEMENTS

- Secured 1st place in a department-level Python Debugging Competition (individual category), July 2026

EXTRACURRICULAR ACTIVITIES

- Member, Discipline Club — College

LANGUAGES

Tamil (Native) | Urdu (Fluent) | English (Working Proficiency) | Hindi (Conversational)
